

REPORT GENERATION MODULE

Screen Images and System Flow

Last updated 10/25/2000

1.1.1 System Flow

Report Generation consists of a single screen.

When the FIA-133A and management reports are called, the Report Generation process keeps running. FIA-176 and FIA-3205 reports are part of Report Generation module. FIA-5S, FIA-719, and FIA-69 reports run after Report Generation is shut down, then call Report Generation again.
